#### **Scope and Content**

The materials in FOIA 2014-0084-F are a selective, not necessarily all inclusive, body of documents responsive to the topic of the FOIA. Researchers should consult the archivist about related materials.

FOIA 2014-0084-F contains materials related to the meetings between President George W. Bush and British Prime Minister Tony Blair at Camp David on February 23, 2001, and February 24, 2001.

This FOIA primarily contains cover sheets, routing memoranda, printed routing emails, press releases, joint statements and drafts thereof, meeting participant lists, scheduling materials for the Camp David visit, and routine planning documents and emails. Included is a thank you letter to President George W. Bush from Prime Minister Tony Blair for hosting the February 2001 Camp David visit. There are drafts of the opening remarks given by President George W. Bush at

the February 23, 2001, press conference with Prime Minister Blair, as well as the joint statement issued by them. Also included are some event memoranda for President George W. Bush, pertaining to the visit of Prime Minister Tony Blair, which mentions general issues to be discussed. There is scheduling material related to other events during this time period, as well.

It should be noted that many of the documents listed here may have been closed due to National Security classification and/or exemptions of the Freedom of Information Act.

### **System of Arrangement**

The materials in FOIA 2014-0084-F are a systematic body of documents responsive to the topic of the FOIA. Researchers should consult an archivist about related materials.

Documents responsive to this FOIA were found in these collection areas – White House Office of Records Management (WHORM) Subject Files, Staff Member Office Files, and George W. Bush Presidential Electronic Records.

Staff and Office Files are maintained at the folder level by staff members within their individual offices and document all levels of administration activity.

Staff and Office Files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area.

WHORM Subject Files are processed at the document level.

The WHORM Subject File compiled by the White House Office of Records Management is comprised of a series of documents assigned a letter/number combination and filed in a subject category. A complete listing of the subject categories including a detailed description of each category is available in our research room and on our website at [www.georgewbushlibrary.smu.edu](http://www.georgewbushlibrary.smu.edu).

The Executive Office of the President (EOP) instance of the Electronic Records Archive (ERA) contains electronic records created or received by President George W. Bush. These records are stored in Search and Access Sets (SAS) that represent their originating computer program, such as Exchange Email or the Worker and Visitor Entry System (WAVES). In addition to records captured from the White House's electronic systems, EOP-ERA also contains records from the home and shared drives used by White House staff.

George W. Bush Presidential Electronic Records are a unique segment preserved in an electronic system separate from the Electronic Records Archive (ERA). The records are processed by topic, printed, and filed in folders. Folders are arranged by Search and Access Set and thereunder by date.

George W. Bush Presidential Electronic Records contain electronic records created or received by members of the White House staff, as well as the Commission on Weapons of Mass

Destruction. These frequently classified records document the daily constitutional and statutory duties carried out by the George W. Bush administration and include record types such as email, email attachments, Night Notes, and cables.

The following is a list of documents and folders, as well as a manifest of electronic records, processed in response to FOIA 2014-0084-F:
