Staff Archivists, 2016. Previously restricted materials are added as they are released. Last Modified: 09/18/2020

#### **Scope and Content**

The materials in FOIA 2014-0125-F are a selective, not necessarily all inclusive, body of documents responsive to the topic of the FOIA. Researchers should consult the archivist about related materials.

FOIA 2014-0125-F contains records related to Lance Armstrong, including correspondence and records of visits and phone conversations with Lance Armstrong.

This FOIA primarily contains records of meetings, events, correspondence, and phone calls. The majority of textual records consist of brief and narrative schedules, briefing papers, participants' lists, remarks, advance materials, planning forms, and other routine preparatory materials for meetings, White House dinners, and cancer awareness events attended by Lance Armstrong and President George W. Bush. Records of correspondence between Lance Armstrong and President George W. Bush consist of drafts and final copies of congratulatory letters on the Tour de France and thank you letters. There are briefing papers and notes for

congratulatory phone calls from President George W. Bush to Lance Armstrong. Electronic records consist of emails relating to phone calls, meetings, and events with Lance Armstrong as well as emails sent and received by Lance Armstrong. Additionally, records include scheduling requests and briefing papers relating to congratulatory phone calls, and drafts and final copies of routine preparatory materials for meetings and events, most of which is duplicative of the textual records described above. Also included are visitor entry log records of visits to the White House by Lance Armstrong.

### **System of Arrangement**

The materials in FOIA 2014-0125-F are a systematic body of documents responsive to the topic of the FOIA. Researchers should consult an archivist about related materials.

Documents responsive to this FOIA were found in these collection areas – White House Office of Records Management (WHORM) Subject Files, Staff Member Office Files, and George W. Bush Presidential Electronic Records.

Staff Member Office Files are maintained at the folder level by staff members within their individual offices and document all levels of administration activity.

Staff Member Office Files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area.

WHORM Subject Files are processed at the document level.

The WHORM Subject File compiled by the White House Office of Records Management is comprised of a series of documents assigned a letter/number combination and filed in a subject category. A complete listing of the subject categories including a detailed description of each category is available in our research room and on our website at [www.georgewbushlibrary.smu.edu](http://www.georgewbushlibrary.smu.edu).

The Executive Office of the President (EOP) instance of the Electronic Records Archive (ERA) contains electronic records created or received by President George W. Bush. These records are stored in Search and Access Sets (SAS) that represent their originating computer program, such as Exchange Email or the Worker and Visitor Entry System (WAVES). In addition to records captured from the White House's electronic systems, EOP-ERA also contains records from the home and shared drives used by White House staff.

**Related Collections** - RE017 (Bicycle Racing \ Horse Shows). Part of the subject category RE (Recreation), this sub-category includes documents regarding cycling with President George W. Bush as well as correspondence, notes, and memoranda about mountain biking.
