President Bush and Governor Bush Visit Fire Station in Florida (May 9, 2006)
Jeb and I just were briefed by the firefighters here about the dry conditions that are creating hazards for the people, and Kelley, I appreciate your briefing. He was in charge of putting out that fire yesterday that consumed 450 acres. They think it was caused by a spark out of one of the
utility lines. I’ve always been impressed by those who are willing to get out and fight the fires, and save lives and save property. I’m surrounded by people who made a career out of that. President Bush Discusses Medicare Prescription Drug Benefit (May 9, 2006)
What I thought I would do is spend a little time talking about the new Medicare program. The reason I'm doing this, because I want people to sign up. And then I'll answer some questions if you have some. And then I'm going to go to Orlando and do the same thing tomorrow morning -- just like I did earlier in South Florida. And the reason why I'm doing this is because we have changed Medicare for the better, but sometimes change creates anxieties. In other words, people say, well, maybe I don't want to change. I kind of like it the way things are, but we have a duty to educate people and give them a chance to see what's available. And that's what I'm doing. That's what you want your President to do. PRESIDENTIAL STATEMENTS

President Disappointed in Senate Failure to Pass Real Medical Liability Reform (May 8, 2006)
I am disappointed that the Senate has yet again failed to pass real medical liability reform legislation. Unwilling to take on their trial lawyer supporters, the Democrats led this effort to block these much-needed reforms. Junk lawsuits are driving too many good doctors out of medicine. Women in nearly 1,500 counties are without a single OB-GYN, and frivolous and abusive lawsuits are encouraging the use of defensive medicine, which imposes substantial and unnecessary costs on all Americans. This is a national problem that deserves a national solution. I have called on Congress to pass responsible medical liability reforms, and the House of Representatives has acted. It is time for the Senate to put the needs of the American people ahead of the interests of trial lawyers and pass meaningful medical liability reform legislation.

President Urges Senate to Pass Tax Cut Legislation (May 10, 2006)
The tax cuts we passed in recent years are working to fuel America's economic expansion. Our pro-growth policies have helped the economy create more than 5.2 million jobs since August of 2003, and last year our economy grew faster than that of any other major industrialized nation. By extending key Capital Gains and Dividends tax relief, the House has taken an important step to continue to help hard-working Americans and to keep our economy strong and growing. I appreciate the House Leadership and Chairman Bill Thomas for their hard work. I urge the Senate to vote swiftly so that I can sign this bill into law and put a stop to a massive tax hike that would be disastrous for small businesses, our economy, and all working Americans.
President Applauds Senate for Passing Tax Relief Legislation (May 11, 2006)
I applaud the Senate for passing important tax relief that will help keep our economy strong and growing. This legislation prevents an enormous tax hike that the American people do not want and would not welcome. The bill will extend policies that have helped our economy flourish. We have had 18 straight quarters of growth, including 4.8 percent growth in the last quarter, and the unemployment rate is 4.7 percent. I appreciate the Senate Leadership and Chairman Grassley for their hard work on behalf of American taxpayers and small businesses, and I look forward to signing this important legislation into law.

President and Mrs. Bush Saddened by Death of Sonny Montgomery (May 12, 2006)
Laura and I and the entire Bush family are saddened by the death of a good friend and patriot, Sonny Montgomery. Sonny Montgomery served during World War II and the Korean War, and he was a tireless advocate for America's veterans throughout his three decades in the House of Representatives. He sponsored the Montgomery GI Bill, which has helped make higher education and professional training accessible to millions of our veterans. In 2005, he was awarded the Presidential Medal of Freedom, the Nation's highest civil award, in recognition of his lifetime of service to the United States. We send our condolences and prayers to the Montgomery family.

**President Bush Discusses Medicare Prescription Drug Benefit (May 9, 2006)**
What I thought I would do is spend a little time talking about the new Medicare program. The reason I'm doing this, because I want people to sign up. And then I'll answer some questions if you have some. And then I'm going to go to Orlando and do the same thing tomorrow morning -- just like I did earlier in South Florida. And the reason why I'm doing this is because we have changed Medicare for the better, but sometimes change creates anxieties. In other words, people say, well, maybe I don't want to change. I kind of like it the way things are, but we have a duty to educate people and give them a chance to see what's available. And that's what I'm doing. That's what you want your President to do. We just visited with some of our citizens inside there, and they're talking about significant savings. And that's what we want, we want our seniors to be able to have modern medicine. So far a lot of seniors have signed up. It's coming down the stretch toward the May 15th deadline; we want everybody to sign up. We want people to understand that they're going to save a lot of money when it comes to prescription drugs. Click Here for Complete Text

**President Bush Discusses NSA Surveillance Program (May 11, 2006)**
After September the 11th, I vowed to the American people that our government would do everything within the law to protect them against another terrorist attack. As part of this effort, I authorized the National Security Agency to intercept the international communications of people with known links to al Qaeda and related terrorist organizations. In other words, if al Qaeda or their associates are making calls into the United States or out of the United States, we want to know what they're saying. Click Here for Complete Text

PRESIDENTIAL STATEMENTS

President Disappointed in Senate Failure to Pass Real Medical Liability Reform (May 8, 2006)
I am disappointed that the Senate has yet again failed to pass real medical liability reform legislation. Unwilling to take on their trial lawyer supporters, the Democrats led this effort to block these much-needed reforms. Junk lawsuits are driving too many good doctors out of medicine. Women in nearly 1,500 counties are without a single OB-GYN, and frivolous and abusive lawsuits are encouraging the use of defensive medicine, which imposes substantial and unnecessary costs on all Americans. This is a national problem that deserves a national solution. I have called on Congress to pass responsible medical liability reforms, and the House of Representatives has acted. It is time for the Senate to put the needs of the American people ahead of the interests of trial lawyer and pass meaningful medical liability reform legislation.

President Urges Senate to Pass Tax Cut Legislation (May 10, 2006)
The tax cuts we passed in recent years are working to fuel America's economic expansion. Our pro-growth policies have helped the economy create more than 5.2 million jobs since August of 2003, and last year our economy grew faster than that of any other major industrialized nation. By extending key Capital Gains and Dividends tax relief, the House has taken an important step to continue to help hard-working Americans and to keep our economy strong and growing. I appreciate the House Leadership and Chairman Bill Thomas for their hard work. I urge the Senate to vote swiftly so that I can sign this bill into law and put a stop to a massive tax hike that would be disastrous for small businesses, our economy, and all working Americans.
President Applauds Senate for Passing Tax Relief Legislation (May 11, 2006)
I applaud the Senate for passing important tax relief that will help keep our economy strong and growing. This legislation prevents an enormous tax hike that the American people do not want and would not welcome. The bill will extend policies that have helped our economy flourish. We have had 18 straight quarters of growth, including 4.8 percent growth in the last quarter, and the unemployment rate is 4.7 percent. I appreciate the Senate Leadership and Chairman Grassley for their hard work on behalf of American taxpayers and small businesses, and I look forward to signing this important legislation into law.

President and Mrs. Bush Saddened by Death of Sonny Montgomery (May 12, 2006)
Laura and I and the entire Bush family are saddened by the death of a good friend and patriot, Sonny Montgomery. Sonny Montgomery served during World War II and the Korean War, and he was a tireless advocate for America's veterans throughout his three decades in the House of Representatives. He sponsored the Montgomery GI Bill, which has helped make higher education and professional training accessible to millions of our veterans. In 2005, he was awarded the Presidential Medal of Freedom, the Nation's highest civil award, in recognition of his lifetime of service to the United States. We send our condolences and prayers to the Montgomery family.

President Nominates General Michael Hayden as Director of the Central Intelligence Agency (May 8, 2006)
Good morning. Today I'm pleased to nominate General Mike Hayden as the next Director of the Central Intelligence Agency. Mike Hayden is supremely qualified for this position. I've come to know him well as our nation's first Deputy Director of National Intelligence. In that position, he's worked closely with our Director of National Intelligence, John Negroponte, to reform America's intelligence capabilities to meet the threats of a new century. President Discusses Peace Agreement in Sudan (May 8, 2006)
I want to thank Secretary of State Condoleezza Rice for joining me, and I also want to thank Deputy Secretary of State Bob Zoellick. He has just briefed me on his trip to Abuja, where he has played a very important role in setting up a peace agreement between the government of Sudan and a major rebel group in the Darfur region. Congratulations on a job well done, Bob. Thank you. Last week we saw the beginnings of hope for the people of Darfur. Click Here for Complete Text

President Bush and Governor Bush Visit Fire Station in Florida (May 9, 2006)
Jeb and I just were briefed by the firefighters here about the dry conditions that are creating hazards for the people, and Kelley, I appreciate your briefing. He was in charge of putting out that fire yesterday that consumed 450 acres. They think it was caused by a spark out of one of the
utility lines. I've always been impressed by those who are willing to get out and fight the fires, and save lives and save property. I'm surrounded by people who made a career out of that. And I want to thank them for their dedication to service, I want to thank them for the briefing about the threat we find ourselves in, we've got dry and windy conditions. President Bush Discusses Medicare Prescription Drug Benefit (May 9, 2006)
What I thought I would do is spend a little time talking about the new Medicare program. The reason I'm doing this, because I want people to sign up. And then I'll answer some questions if you have some. And then I'm going to go to Orlando and do the same thing tomorrow morning -- just like I did earlier in South Florida. And the reason why I'm doing this is because we have changed Medicare for the better, but sometimes change creates anxieties. In other words, people say, well, maybe I don't want to change. I kind of like it the way things are, but we have a duty to educate people and give them a chance to see what's available. And that's what I'm doing. That's what you want your President to do. President Bush and Health and Human Services Secretary Leavitt Make Remarks to the Travel Pool (May 9, 2006)
I want to thank you all for joining us. I'm proud to be here with Secretary Leavitt. We're traveling the country reminding people that there's a fantastic opportunity for our seniors, and that is Medicare now offers a prescription drug benefit that will save people a lot of money. We just visited with some of our citizens inside there, and they're talking about significant savings. And that's what we want, we want our seniors to be able to have modern medicine. So far a lot of seniors have signed up. It's coming down the stretch toward the May 15th deadline; we want everybody to sign up. We want people to understand that they're going to save a lot of money when it comes to prescription drugs. Click Here for Complete Text

President Bush Meets with Victims of Identity Theft (May 10, 2006)
Identity theft is a serious problem in America. I have just listened to the horror stories from fellow citizens who have had their identities stolen. And I want to thank you all for joining us. Click Here for Complete Text

President Bush Discusses NSA Surveillance Program (May 11, 2006)
After September the 11th, I vowed to the American people that our government would do everything within the law to protect them against another terrorist attack. As part of this effort, I authorized the National Security Agency to intercept the international communications of people with known links to al Qaeda and related terrorist organizations. In other words, if al Qaeda or their associates are making calls into the United States or out of the United States, we want to know what they're saying. Click Here for Complete Text

PRESIDENTIAL STATEMENTS

President Disappointed in Senate Failure to Pass Real Medical Liability Reform (May 8, 2006)
I am disappointed that the Senate has yet again failed to pass real medical liability reform legislation. Unwilling to take on their trial lawyer supporters, the Democrats led this effort to block these much-needed reforms. Junk lawsuits are driving too many good doctors out of medicine. Women in nearly 1,500 counties are without a single OB-GYN, and frivolous and abusive lawsuits are encouraging the use of defensive medicine, which imposes substantial and unnecessary costs on all Americans. This is a national problem that deserves a national solution. I have called on Congress to pass responsible medical liability reforms, and the House of Representatives has acted. It is time for the Senate to put the needs of the American people ahead of the interests of trial lawyers and pass meaningful medical liability reform legislation.

President Urges Senate to Pass Tax Cut Legislation (May 10, 2006)
The tax cuts we passed in recent years are working to fuel America's economic expansion. Our pro-growth policies have helped the economy create more than 5.2 million jobs since August of 2003, and last year our economy grew faster than that of any other major industrialized nation. By extending key Capital Gains and Dividends tax relief, the House has taken an important step to continue to help hard-working Americans and to keep our economy strong and growing. I appreciate the House Leadership and Chairman Bill Thomas for their hard work. I urge the Senate to vote swiftly so that I can sign this bill into law and put a stop to a massive tax hike that would be disastrous for small businesses, our economy, and all working Americans.
President Applauds Senate for Passing Tax Relief Legislation (May 11, 2006)
I applaud the Senate for passing important tax relief that will help keep our economy strong and growing. This legislation prevents an enormous tax hike that the American people do not want and would not welcome. The bill will extend policies that have helped our economy flourish. We have had 18 straight quarters of growth, including 4.8 percent growth in the last quarter, and the unemployment rate is 4.7 percent. I appreciate the Senate Leadership and Chairman Grassley for their hard work on behalf of American taxpayers and small businesses, and I look forward to signing this important legislation into law.

President and Mrs. Bush Saddened by Death of Sonny Montgomery (May 12, 2006)
Laura and I and the entire Bush family are saddened by the death of a good friend and patriot, Sonny Montgomery. Sonny Montgomery served during World War II and the Korean War, and he was a tireless advocate for America's veterans throughout his three decades in the House of Representatives. He sponsored the Montgomery GI Bill, which has helped make higher education and professional training accessible to millions of our veterans. In 2005, he was awarded the Presidential Medal of Freedom, the Nation's highest civil award, in recognition of his lifetime of service to the United States. We send our condolences and prayers to the Montgomery family.

President Nominates General Michael Hayden as Director of the Central Intelligence Agency (May 8, 2006)
Good morning. Today I’m pleased to nominate General Mike Hayden as the next Director of the Central Intelligence Agency. Mike Hayden is supremely qualified for this position. I’ve come to know him well as our nation’s first Deputy Director of National Intelligence. In that position, he’s worked closely with our Director of National Intelligence, John Negroponte, to reform America’s intelligence capabilities to meet the threats of a new century. President Discusses Peace Agreement in Sudan (May 8, 2006)
I want to thank Secretary of State Condoleezza Rice for joining me, and I also want to thank Deputy Secretary of State Bob Zoellick. He has just briefed me on his trip to Abuja, where he has played a very important role in setting up a peace agreement between the government of Sudan and a major rebel group in the Darfur region. Congratulations on a job well done, Bob. Thank you. Last week we saw the beginnings of hope for the people of Darfur. Click Here for Complete Text

President Bush and Governor Bush Visit Fire Station in Florida (May 9, 2006)
Jeb and I just were briefed by the firefighters here about the dry conditions that are creating hazards for the people, and Kelley, I appreciate your briefing. He was in charge of putting out that fire yesterday that consumed 450 acres. They think it was caused by a spark out of one of the
utility lines. I've always been impressed by those who are willing to get out and fight the fires, and save lives and save property. I'm surrounded by people who made a career out of that. And I want to thank them for their dedication to service, I want to thank them for the briefing about the threat we find ourselves in, we've got dry and windy conditions. President Bush Discusses Medicare Prescription Drug Benefit (May 9, 2006)
What I thought I would do is spend a little time talking about the new Medicare program. The reason I'm doing this, because I want people to sign up. And then I'll answer some questions if you have some. And then I'm going to go to Orlando and do the same thing tomorrow morning -- just like I did earlier in South Florida. And the reason why I'm doing this is because we have changed Medicare for the better, but sometimes change creates anxieties. In other words, people say, well, maybe I don't want to change. I kind of like it the way things are, but we have a duty to educate people and give them a chance to see what's available. And that's what I'm doing. That's what you want your President to do. President Bush and Health and Human Services Secretary Leavitt Make Remarks to the Travel Pool (May 9, 2006)
I want to thank you all for joining us. I'm proud to be here with Secretary Leavitt. We're traveling the country reminding people that there's a fantastic opportunity for our seniors, and that is Medicare now offers a prescription drug benefit that will save people a lot of money. We just visited with some of our citizens inside there, and they're talking about significant savings. And that's what we want, we want our seniors to be able to have modern medicine. So far a lot of seniors have signed up. It's coming down the stretch toward the May 15th deadline; we want everybody to sign up. We want people to understand that they're going to save a lot of money when it comes to prescription drugs. Click Here for Complete Text

President Bush Meets with Victims of Identity Theft (May 10, 2006)
Identity theft is a serious problem in America. I have just listened to the horror stories from fellow citizens who have had their identities stolen. I listened to their ideas about how the federal government can help in the response in not only dealing with those who commit the crime, but helping those who have been victimized. And I want to thank you all for joining us. Click Here for Complete Text

President Bush Discusses NSA Surveillance Program (May 11, 2006)
After September the 11th, I vowed to the American people that our government would do everything within the law to protect them against another terrorist attack. As part of this effort, I authorized the National Security Agency to intercept the international communications of people with known links to al Qaeda and related terrorist organizations. In other words, if al Qaeda or their associates are making calls into the United States or out of the United States, we want to know what they're saying. Click Here for Complete Text

PRESIDENTIAL STATEMENTS

President Disappointed in Senate Failure to Pass Real Medical Liability Reform (May 8, 2006)
I am disappointed that the Senate has yet again failed to pass real medical liability reform legislation. Unwilling to take on their trial lawyer supporters, the Democrats led this effort to block these much-needed reforms. Junk lawsuits are driving too many good doctors out of medicine. Women in nearly 1,500 counties are without a single OB-GYN, and frivolous and abusive lawsuits are encouraging the use of defensive medicine, which imposes substantial and unnecessary costs on all Americans. This is a national problem that deserves a national solution. I have called on Congress to pass responsible medical liability reforms, and the House of Representatives has acted. It is time for the Senate to put the needs of the American people ahead of the interests of trial lawyers and pass meaningful medical liability reform legislation.

President Urges Senate to Pass Tax Cut Legislation (May 10, 2006)
The tax cuts we passed in recent years are working to fuel America's economic expansion. Our pro-growth policies have helped the economy create more than 5.2 million jobs since August of 2003, and last year our economy grew faster than that of any other major industrialized nation. By extending key Capital Gains and Dividends tax relief, the House has taken an important step to continue to help hard-working Americans and to keep our economy strong and growing. I appreciate the House Leadership and Chairman Bill Thomas for their hard work. I urge the Senate to vote swiftly so that I can sign this bill into law and put a stop to a massive tax hike that would be disastrous for small businesses, our economy, and all working Americans.
President Applauds Senate for Passing Tax Relief Legislation (May 11, 2006)
I applaud the Senate for passing important tax relief that will help keep our economy strong and growing. This legislation prevents an enormous tax hike that the American people do not want and would not welcome. The bill will extend policies that have helped our economy flourish. We have had 18 straight quarters of growth, including 4.8 percent growth in the last quarter, and the unemployment rate is 4.7 percent. I appreciate the Senate Leadership and Chairman Grassley for their hard work on behalf of American taxpayers and small businesses, and I look forward to signing this important legislation into law.

President and Mrs. Bush Saddened by Death of Sonny Montgomery (May 12, 2006)
Laura and I and the entire Bush family are saddened by the death of a good friend and patriot, Sonny Montgomery. Sonny Montgomery served during World War II and the Korean War, and he was a tireless advocate for America's veterans throughout his three decades in the House of Representatives. He sponsored the Montgomery GI Bill, which has helped make higher education and professional training accessible to millions of our veterans. In 2005, he was awarded the Presidential Medal of Freedom, the Nation's highest civil award, in recognition of his lifetime of service to the United States. We send our condolences and prayers to the Montgomery family.

Of the more than 42 million people eligible for Medicare, more than 31 million people with Medicare now have Part D-related prescription drug coverage and hundreds of thousands more are enrolling now. President Bush and Governor Bush Visit Fire Station in Florida (May 9, 2006)
Jeb and I just were briefed by the firefighters here about the dry conditions that are creating hazards for the people, and Kelley, I appreciate your briefing. He was in charge of putting out that fire yesterday that consumed 450 acres. They think it was caused by a spark out of one of the
utility lines. I've always been impressed by those who are willing to get out and fight the fires, and save lives and save property. I'm surrounded by people who made a career out of that. And I want to thank them for their dedication to service, I want to thank them for the briefing about the threat we find ourselves in, we've got dry and windy conditions. **President Bush Discusses Medicare Prescription Drug Benefit (May 9, 2006)**

What I thought I would do is spend a little time talking about the new Medicare program. The reason I'm doing this, because I want people to sign up. And then I'll answer some questions if you have some. And then I'm going to go to Orlando and do the same thing tomorrow morning -- just like I did earlier in South Florida. And the reason why I'm doing this is because we have changed Medicare for the better, but sometimes change creates anxieties. In other words, people say, well, maybe I don't want to change. I kind of like it the way things are, but we have a duty to educate people and give them a chance to see what's available. And that's what I'm doing. That's what you want your President to do. So far a lot of seniors have signed up. It's coming down the stretch toward the May 15th deadline; we want everybody to sign up. We want people to understand that they're going to save a lot of money when it comes to prescription drugs. Click Here for Complete Text

PRESIDENTIAL STATEMENTS

President Disappointed in Senate Failure to Pass Real Medical Liability Reform (May 8, 2006)

I am disappointed that the Senate has yet again failed to pass real medical liability reform legislation. Unwilling to take on their trial lawyer supporters, the Democrats led this effort to block these much-needed reforms. Junk lawsuits are driving too many good doctors out of medicine. Women in nearly 1,500 counties are without a single OB-GYN, and frivolous and abusive lawsuits are encouraging the use of defensive medicine, which imposes substantial and unnecessary costs on all Americans. This is a national problem that deserves a national solution. I have called on Congress to pass responsible medical liability reforms, and the House of Representatives has acted. It is time for the Senate to put the needs of the American people ahead of the interests of trial lawyers and pass meaningful medical liability reform legislation.

President Urges Senate to Pass Tax Cut Legislation (May 10, 2006)

The tax cuts we passed in recent years are working to fuel America's economic expansion. Our pro-growth policies have helped the economy create more than 5.2 million jobs since August of 2003, and last year our economy grew faster than that of any other major industrialized nation. By extending key Capital Gains and Dividends tax relief, the House has taken an important step to continue to help hard-working Americans and to keep our economy strong and growing. I appreciate the House Leadership and Chairman Bill Thomas for their hard work. I urge the Senate to vote swiftly so that I can sign this bill into law and put a stop to a massive tax hike that would be disastrous for small businesses, our economy, and all working Americans.
President Applauds Senate for Passing Tax Relief Legislation (May 11, 2006)
I applaud the Senate for passing important tax relief that will help keep our economy strong and growing. This legislation prevents an enormous tax hike that the American people do not want and would not welcome. The bill will extend policies that have helped our economy flourish. We have had 18 straight quarters of growth, including 4.8 percent growth in the last quarter, and the unemployment rate is 4.7 percent. I appreciate the Senate Leadership and Chairman Grassley for their hard work on behalf of American taxpayers and small businesses, and I look forward to signing this important legislation into law.

President and Mrs. Bush Saddened by Death of Sonny Montgomery (May 12, 2006)
Laura and I and the entire Bush family are saddened by the death of a good friend and patriot, Sonny Montgomery. Sonny Montgomery served during World War II and the Korean War, and he was a tireless advocate for America's veterans throughout his three decades in the House of Representatives. He sponsored the Montgomery GI Bill, which has helped make higher education and professional training accessible to millions of our veterans. In 2005, he was awarded the Presidential Medal of Freedom, the Nation's highest civil award, in recognition of his lifetime of service to the United States. We send our condolences and prayers to the Montgomery family.

President Bush and Governor Bush Visit Fire Station in Florida (May 9, 2006)
Jeb and I just were briefed by the firefighters here about the dry conditions that are creating hazards for the people, and Kelley, I appreciate your briefing. He was in charge of putting out that fire yesterday that consumed 450 acres. They think it was caused by a spark out of one of the
utility lines. I've always been impressed by those who are willing to get out and fight the fires, and save lives and save property. I'm surrounded by people who made a career out of that. And I want to thank them for their dedication to service, I want to thank them for the briefing about the threat we find ourselves in, we've got dry and windy conditions. President Bush Discusses Medicare Prescription Drug Benefit (May 9, 2006)
What I thought I would do is spend a little time talking about the new Medicare program. The reason I'm doing this, because I want people to sign up. And then I'll answer some questions if you have some. And then I'm going to go to Orlando and do the same thing tomorrow morning -- just like I did earlier in South Florida. And the reason why I'm doing this is because we have changed Medicare for the better, but sometimes change creates anxieties. In other words, people say, well, maybe I don't want to change. I kind of like it the way things are, but we have a duty to educate people and give them a chance to see what's available. And that's what I'm doing. That's what you want your President to do. So far a lot of seniors have signed up. It's coming down the stretch toward the May 15th deadline; we want everybody to sign up. We want people to understand that they're going to save a lot of money when it comes to prescription drugs. Click Here for Complete Text

PRESIDENTIAL STATEMENTS

President Disappointed in Senate Failure to Pass Real Medical Liability Reform (May 8, 2006)
I am disappointed that the Senate has yet again failed to pass real medical liability reform legislation. Unwilling to take on their trial lawyer supporters, the Democrats led this effort to block these much-needed reforms. Junk lawsuits are driving too many good doctors out of medicine. Women in nearly 1,500 counties are without a single OB-GYN, and frivolous and abusive lawsuits are encouraging the use of defensive medicine, which imposes substantial and unnecessary costs on all Americans. This is a national problem that deserves a national solution. I have called on Congress to pass responsible medical liability reforms, and the House of Representatives has acted. It is time for the Senate to put the needs of the American people ahead of the interests of trial lawyers and pass meaningful medical liability reform legislation.

President Urges Senate to Pass Tax Cut Legislation (May 10, 2006)
The tax cuts we passed in recent years are working to fuel America's economic expansion. Our pro-growth policies have helped the economy create more than 5.2 million jobs since August of 2003, and last year our economy grew faster than that of any other major industrialized nation. By extending key Capital Gains and Dividends tax relief, the House has taken an important step to continue to help hard-working Americans and to keep our economy strong and growing. I appreciate the House Leadership and Chairman Bill Thomas for their hard work. I urge the Senate to vote swiftly so that I can sign this bill into law and put a stop to a massive tax hike that would be disastrous for small businesses, our economy, and all working Americans.
President Applauds Senate for Passing Tax Relief Legislation (May 11, 2006)

I applaud the Senate for passing important tax relief that will help keep our economy strong and growing. This legislation prevents an enormous tax hike that the American people do not want and would not welcome. The bill will extend policies that have helped our economy flourish. We have had 18 straight quarters of growth, including 4.8 percent growth in the last quarter, and the unemployment rate is 4.7 percent. I appreciate the Senate Leadership and Chairman Grassley for their hard work on behalf of American taxpayers and small businesses, and I look forward to signing this important legislation into law.

President and Mrs. Bush Saddened by Death of Sonny Montgomery (May 12, 2006)

Laura and I and the entire Bush family are saddened by the death of a good friend and patriot, Sonny Montgomery. Sonny Montgomery served during World War II and the Korean War, and he was a tireless advocate for America's veterans throughout his three decades in the House of Representatives. He sponsored the Montgomery GI Bill, which has helped make higher education and professional training accessible to millions of our veterans. In 2005, he was awarded the Presidential Medal of Freedom, the Nation's highest civil award, in recognition of his lifetime of service to the United States. We send our condolences and prayers to the Montgomery family.

President Bush and Governor Bush Visit Fire Station in Florida (May 9, 2006)
Jeb and I just were briefed by the firefighters here about the dry conditions that are creating hazards for the people, and Kelley, I appreciate your briefing. He was in charge of putting out that fire yesterday that consumed 450 acres. They think it was caused by a spark out of one of the
utility lines. I've always been impressed by those who are willing to get out and fight the fires, and save lives and save property. I'm surrounded by people who made a career out of that. And I want to thank them for their dedication to service, I want to thank them for the briefing about the threat we find ourselves in, we've got dry and windy conditions. President Bush Discusses Medicare Prescription Drug Benefit (May 9, 2006)
What I thought I would do is spend a little time talking about the new Medicare program. The reason I'm doing this, because I want people to sign up. And then I'll answer some questions if you have some. And then I'm going to go to Orlando and do the same thing tomorrow morning -- just like I did earlier in South Florida. And the reason why I'm doing this is because we have changed Medicare for the better, but sometimes change creates anxieties. In other words, people say, well, maybe I don't want to change. I kind of like it the way things are, but we have a duty to educate people and give them a chance to see what's available. And that's what I'm doing. That's what you want your President to do. So far a lot of seniors have signed up. It's coming down the stretch toward the May 15th deadline; we want everybody to sign up. We want people to understand that they're going to save a lot of money when it comes to prescription drugs. Click Here for Complete Text

PRESIDENTIAL STATEMENTS

President Disappointed in Senate Failure to Pass Real Medical Liability Reform (May 8, 2006)
I am disappointed that the Senate has yet again failed to pass real medical liability reform legislation. Unwilling to take on their trial lawyer supporters, the Democrats led this effort to block these much-needed reforms. Junk lawsuits are driving too many good doctors out of medicine. Women in nearly 1,500 counties are without a single OB-GYN, and frivolous and abusive lawsuits are encouraging the use of defensive medicine, which imposes substantial and unnecessary costs on all Americans. This is a national problem that deserves a national solution. I have called on Congress to pass responsible medical liability reforms, and the House of Representatives has acted. It is time for the Senate to put the needs of the American people ahead of the interests of trial lawyers and pass meaningful medical liability reform legislation.

President Urges Senate to Pass Tax Cut Legislation (May 10, 2006)
The tax cuts we passed in recent years are working to fuel America's economic expansion. Our pro-growth policies have helped the economy create more than 5.2 million jobs since August of 2003, and last year our economy grew faster than that of any other major industrialized nation. By extending key Capital Gains and Dividends tax relief, the House has taken an important step to continue to help hard-working Americans and to keep our economy strong and growing. I appreciate the House Leadership and Chairman Bill Thomas for their hard work. I urge the Senate to vote swiftly so that I can sign this bill into law and put a stop to a massive tax hike that would be disastrous for small businesses, our economy, and all working Americans.
President Applauds Senate for Passing Tax Relief Legislation (May 11, 2006)
I applaud the Senate for passing important tax relief that will help keep our economy strong and growing. This legislation prevents an enormous tax hike that the American people do not want and would not welcome. The bill will extend policies that have helped our economy flourish. We have had 18 straight quarters of growth, including 4.8 percent growth in the last quarter, and the unemployment rate is 4.7 percent. I appreciate the Senate Leadership and Chairman Grassley for their hard work on behalf of American taxpayers and small businesses, and I look forward to signing this important legislation into law.

President and Mrs. Bush Saddened by Death of Sonny Montgomery (May 12, 2006)
Laura and I and the entire Bush family are saddened by the death of a good friend and patriot, Sonny Montgomery. Sonny Montgomery served during World War II and the Korean War, and he was a tireless advocate for America's veterans throughout his three decades in the House of Representatives. He sponsored the Montgomery GI Bill, which has helped make higher education and professional training accessible to millions of our veterans. In 2005, he was awarded the Presidential Medal of Freedom, the Nation's highest civil award, in recognition of his lifetime of service to the United States. We send our condolences and prayers to the Montgomery family.

President Nominates General Michael Hayden as Director of the Central Intelligence Agency (May 8, 2006)
Good morning. Today I'm pleased to nominate General Mike Hayden as the next Director of the Central Intelligence Agency. Mike Hayden is supremely qualified for this position. I've come to know him well as our nation's first Deputy Director of National Intelligence. In that position, he's worked closely with our Director of National Intelligence, John Negroponte, to reform America's intelligence capabilities to meet the threats of a new century. President Discusses Peace Agreement in Sudan (May 8, 2006)
I want to thank Secretary of State Condoleezza Rice for joining me, and I also want to thank Deputy Secretary of State Bob Zoellick. He has just briefed me on his trip to Abuja, where he has played a very important role in setting up a peace agreement between the government of Sudan and a major rebel group in the Darfur region. Congratulations on a job well done, Bob. Thank you. Last week we saw the beginnings of hope for the people of Darfur. Click Here for Complete Text

President Bush and Governor Bush Visit Fire Station in Florida (May 9, 2006)
Jeb and I just were briefed by the firefighters here about the dry conditions that are creating hazards for the people, and Kelley, I appreciate your briefing. He was in charge of putting out that fire yesterday that consumed 450 acres. They think it was caused by a spark out of one of the
utility lines. I've always been impressed by those who are willing to get out and fight the fires, and save lives and save property. I'm surrounded by people who made a career out of that. And I want to thank them for their dedication to service, I want to thank them for the briefing about the threat we find ourselves in, we've got dry and windy conditions. President Bush Discusses Medicare Prescription Drug Benefit (May 9, 2006)
What I thought I would do is spend a little time talking about the new Medicare program. The reason I'm doing this, because I want people to sign up. And then I'll answer some questions if you have some. And then I'm going to go to Orlando and do the same thing tomorrow morning -- just like I did earlier in South Florida. And the reason why I'm doing this is because we have changed Medicare for the better, but sometimes change creates anxieties. In other words, people say, well, maybe I don't want to change. I kind of like it the way things are, but we have a duty to educate people and give them a chance to see what's available. And that's what I'm doing. That's what you want your President to do. President Bush and Health and Human Services Secretary Leavitt Make Remarks to the Travel Pool (May 9, 2006)
I want to thank you all for joining us. I'm proud to be here with Secretary Leavitt. We're traveling the country reminding people that there's a fantastic opportunity for our seniors, and that is Medicare now offers a prescription drug benefit that will save people a lot of money. We just visited with some of our citizens inside there, and they're talking about significant savings. And that's what we want, we want our seniors to be able to have modern medicine. So far a lot of seniors have signed up. It's coming down the stretch toward the May 15th deadline; we want everybody to sign up. We want people to understand that they're going to save a lot of money when it comes to prescription drugs. Click Here for Complete Text

President Bush Meets with Victims of Identity Theft (May 10, 2006)
Identity theft is a serious problem in America. I have just listened to the horror stories from fellow citizens who have had their identities stolen. I listened to their ideas about how the federal government can help in the response in not only dealing with those who commit the crime, but helping those who have been victimized. And I want to thank you all for joining us. Click Here for Complete Text

President Bush Discusses NSA Surveillance Program (May 11, 2006)
After September the 11th, I vowed to the American people that our government would do everything within the law to protect them against another terrorist attack. As part of this effort, I authorized the National Security Agency to intercept the international communications of people with known links to al Qaeda and related terrorist organizations. In other words, if al Qaeda or their associates are making calls into the United States or out of the United States, we want to know what they're saying. Click Here for Complete Text

PRESIDENTIAL STATEMENTS

President Disappointed in Senate Failure to Pass Real Medical Liability Reform (May 8, 2006)
I am disappointed that the Senate has yet again failed to pass real medical liability reform legislation. Unwilling to take on their trial lawyer supporters, the Democrats led this effort to block these much-needed reforms. Junk lawsuits are driving too many good doctors out of medicine. Women in nearly 1,500 counties are without a single OB-GYN, and frivolous and abusive lawsuits are encouraging the use of defensive medicine, which imposes substantial and unnecessary costs on all Americans. This is a national problem that deserves a national solution. I have called on Congress to pass responsible medical liability reforms, and the House of Representatives has acted. It is time for the Senate to put the needs of the American people ahead of the interests of trial lawyers and pass meaningful medical liability reform legislation.

President Urges Senate to Pass Tax Cut Legislation (May 10, 2006)
The tax cuts we passed in recent years are working to fuel America's economic expansion. Our pro-growth policies have helped the economy create more than 5.2 million jobs since August of 2003, and last year our economy grew faster than that of any other major industrialized nation. By extending key Capital Gains and Dividends tax relief, the House has taken an important step to continue to help hard-working Americans and to keep our economy strong and growing. I appreciate the House Leadership and Chairman Bill Thomas for their hard work. I urge the Senate to vote swiftly so that I can sign this bill into law and put a stop to a massive tax hike that would be disastrous for small businesses, our economy, and all working Americans.
President Applauds Senate for Passing Tax Relief Legislation (May 11, 2006)
I applaud the Senate for passing important tax relief that will help keep our economy strong and growing. This legislation prevents an enormous tax hike that the American people do not want and would not welcome. The bill will extend policies that have helped our economy flourish. We have had 18 straight quarters of growth, including 4.8 percent growth in the last quarter, and the unemployment rate is 4.7 percent. I appreciate the Senate Leadership and Chairman Grassley for their hard work on behalf of American taxpayers and small businesses, and I look forward to signing this important legislation into law.

President and Mrs. Bush Saddened by Death of Sonny Montgomery (May 12, 2006)
Laura and I and the entire Bush family are saddened by the death of a good friend and patriot, Sonny Montgomery. Sonny Montgomery served during World War II and the Korean War, and he was a tireless advocate for America's veterans throughout his three decades in the House of Representatives. He sponsored the Montgomery GI Bill, which has helped make higher education and professional training accessible to millions of our veterans. In 2005, he was awarded the Presidential Medal of Freedom, the Nation's highest civil award, in recognition of his lifetime of service to the United States. We send our condolences and prayers to the Montgomery family.

President Bush and Governor Bush Visit Fire Station in Florida (May 9, 2006)
Jeb and I just were briefed by the firefighters here about the dry conditions that are creating hazards for the people, and Kelley, I appreciate your briefing. He was in charge of putting out that fire yesterday that consumed 450 acres. They think it was caused by a spark out of one of the
utility lines. I’ve always been impressed by those who are willing to get out and fight the fires, and save lives and save property. I'm surrounded by people who made a career out of that. And I want to thank them for their dedication to service, I want to thank them for the briefing about the threat we find ourselves in, we've got dry and windy conditions. President Bush Discusses Medicare Prescription Drug Benefit (May 9, 2006)
What I thought I would do is spend a little time talking about the new Medicare program. The reason I'm doing this, because I want people to sign up. And then I'll answer some questions if you have some. And then I'm going to go to Orlando and do the same thing tomorrow morning -- just like I did earlier in South Florida. And the reason why I'm doing this is because we have changed Medicare for the better, but sometimes change creates anxieties. In other words, people say, well, maybe I don't want to change. I kind of like it the way things are, but we have a duty to educate people and give them a chance to see what's available. And that's what I'm doing. That's what you want your President to do. PRESIDENTIAL STATEMENTS

President Disappointed in Senate Failure to Pass Real Medical Liability Reform (May 8, 2006)
I am disappointed that the Senate has yet again failed to pass real medical liability reform legislation. Unwilling to take on their trial lawyer supporters, the Democrats led this effort to block these much-needed reforms. Junk lawsuits are driving too many good doctors out of medicine. Women in nearly 1,500 counties are without a single OB-GYN, and frivolous and abusive lawsuits are encouraging the use of defensive medicine, which imposes substantial and unnecessary costs on all Americans. This is a national problem that deserves a national solution. I have called on Congress to pass responsible medical liability reforms, and the House of Representatives has acted. It is time for the Senate to put the needs of the American people ahead of the interests of trial lawyers and pass meaningful medical liability reform legislation.

President Urges Senate to Pass Tax Cut Legislation (May 10, 2006)
The tax cuts we passed in recent years are working to fuel America's economic expansion. Our pro-growth policies have helped the economy create more than 5.2 million jobs since August of 2003, and last year our economy grew faster than that of any other major industrialized nation. By extending key Capital Gains and Dividends tax relief, the House has taken an important step to continue to help hard-working Americans and to keep our economy strong and growing. I appreciate the House Leadership and Chairman Bill Thomas for their hard work. I urge the Senate to vote swiftly so that I can sign this bill into law and put a stop to a massive tax hike that would be disastrous for small businesses, our economy, and all working Americans.
President Applauds Senate for Passing Tax Relief Legislation (May 11, 2006)
I applaud the Senate for passing important tax relief that will help keep our economy strong and growing. This legislation prevents an enormous tax hike that the American people do not want and would not welcome. The bill will extend policies that have helped our economy flourish. We have had 18 straight quarters of growth, including 4.8 percent growth in the last quarter, and the unemployment rate is 4.7 percent. I appreciate the Senate Leadership and Chairman Grassley for their hard work on behalf of American taxpayers and small businesses, and I look forward to signing this important legislation into law.

President and Mrs. Bush Saddened by Death of Sonny Montgomery (May 12, 2006)
Laura and I and the entire Bush family are saddened by the death of a good friend and patriot, Sonny Montgomery. Sonny Montgomery served during World War II and the Korean War, and he was a tireless advocate for America's veterans throughout his three decades in the House of Representatives. He sponsored the Montgomery GI Bill, which has helped make higher education and professional training accessible to millions of our veterans. In 2005, he was awarded the Presidential Medal of Freedom, the Nation's highest civil award, in recognition of his lifetime of service to the United States. We send our condolences and prayers to the Montgomery family.

USA Today's Misleading Medicare Story (May 9, 2006)
Millions of minorities are enrolling in Medicare drug coverage. USA Today claims "Poor, Often Minority" Medicare beneficiaries are not enrolling in Medicare drug coverage. "While millions of seniors and people with disabilities are signing up and saving money, the program is being used least by those who could benefit most: poor, often minority Medicare beneficiaries" (Richard Wolf, "Those Most In Need May Miss Drug Benefit Sign-up," USA Today, 5/9/06). But by April, more than 70 percent of eligible African Americans, more than 70 percent of eligible Hispanics, and more than 75 percent of eligible Asian Americans are enrolled or have retiree drug coverage. The New York Times says "Fixed costs, like housing, health care and gasoline" are "rapidly outpacing" paychecks and benefits. (Editorial, "Barely Staying Afloat," The New York Times, 5/10/06) But average hourly earnings have risen 3.8 percent over the past 12 months, their largest increase in nearly five years. Hourly compensation has risen at a 5.7 percent rate in the first quarter. Personal income rose 0.5 percent in March. Real after-tax income has risen by 13.8 percent since January 2001. Real after-tax income has risen by $2,398 (8.2 percent) per person since January 2001. Securities prices show the market believes that inflation is expected to remain in check. CBS News' Misleading Medicare Report (May 10, 2006)

(CBS' "Evening News," 5/9/06) But 37 million seniors have coverage. Of the more than 42 million people eligible for Medicare, more than 31 million people with Medicare now have Part D-related prescription drug coverage and hundreds of thousands more are enrolling now. Nearly 6 million more eligible beneficiaries have an alternative source of coverage (i.e., they are covered by VA, Indian Health, or they are still working). [Click here for complete text.]

President Bush and Governor Bush Visit Fire Station in Florida (May 9, 2006)
Jeb and I just were briefed by the firefighters here about the dry conditions that are creating hazards for the people, and Kelley, I appreciate your briefing. He was in charge of putting out that fire yesterday that consumed 450 acres. They think it was caused by a spark out of one of the
utility lines. I've always been impressed by those who are willing to get out and fight the fires, and save lives and save property. I'm surrounded by people who made a career out of that. And I want to thank them for their dedication to service, I want to thank them for the briefing about the threat we find ourselves in, we've got dry and windy conditions. President Bush Discusses Medicare Prescription Drug Benefit (May 9, 2006)
What I thought I would do is spend a little time talking about the new Medicare program. The reason I'm doing this, because I want people to sign up. And then I'll answer some questions if you have some. And then I'm going to go to Orlando and do the same thing tomorrow morning -- just like I did earlier in South Florida. And the reason why I'm doing this is because we have changed Medicare for the better, but sometimes change creates anxieties. In other words, people say, well, maybe I don't want to change. I kind of like it the way things are, but we have a duty to educate people and give them a chance to see what's available. And that's what I'm doing. That's what you want your President to do. So far a lot of seniors have signed up. It's coming down the stretch toward the May 15th deadline; we want everybody to sign up. We want people to understand that they're going to save a lot of money when it comes to prescription drugs. Click Here for Complete Text

PRESIDENTIAL STATEMENTS

President Disappointed in Senate Failure to Pass Real Medical Liability Reform (May 8, 2006)

I am disappointed that the Senate has yet again failed to pass real medical liability reform legislation. Unwilling to take on their trial lawyer supporters, the Democrats led this effort to block these much-needed reforms. Junk lawsuits are driving too many good doctors out of medicine. Women in nearly 1,500 counties are without a single OB-GYN, and frivolous and abusive lawsuits are encouraging the use of defensive medicine, which imposes substantial and unnecessary costs on all Americans. This is a national problem that deserves a national solution. I have called on Congress to pass responsible medical liability reforms, and the House of Representatives has acted. It is time for the Senate to put the needs of the American people ahead of the interests of trial lawyers and pass meaningful medical liability reform legislation.

President Urges Senate to Pass Tax Cut Legislation (May 10, 2006)

The tax cuts we passed in recent years are working to fuel America's economic expansion. Our pro-growth policies have helped the economy create more than 5.2 million jobs since August of 2003, and last year our economy grew faster than that of any other major industrialized nation. By extending key Capital Gains and Dividends tax relief, the House has taken an important step to continue to help hard-working Americans and to keep our economy strong and growing. I appreciate the House Leadership and Chairman Bill Thomas for their hard work. I urge the Senate to vote swiftly so that I can sign this bill into law and put a stop to a massive tax hike that would be disastrous for small businesses, our economy, and all working Americans.
President Applauds Senate for Passing Tax Relief Legislation (May 11, 2006)
I applaud the Senate for passing important tax relief that will help keep our economy strong and growing. This legislation prevents an enormous tax hike that the American people do not want and would not welcome. The bill will extend policies that have helped our economy flourish. We have had 18 straight quarters of growth, including 4.8 percent growth in the last quarter, and the unemployment rate is 4.7 percent. I appreciate the Senate Leadership and Chairman Grassley for their hard work on behalf of American taxpayers and small businesses, and I look forward to signing this important legislation into law.

President and Mrs. Bush Saddened by Death of Sonny Montgomery (May 12, 2006)
Laura and I and the entire Bush family are saddened by the death of a good friend and patriot, Sonny Montgomery. Sonny Montgomery served during World War II and the Korean War, and he was a tireless advocate for America’s veterans throughout his three decades in the House of Representatives. He sponsored the Montgomery GI Bill, which has helped make higher education and professional training accessible to millions of our veterans. In 2005, he was awarded the Presidential Medal of Freedom, the Nation’s highest civil award, in recognition of his lifetime of service to the United States. We send our condolences and prayers to the Montgomery family.

President Nominates General Michael Hayden as Director of the Central Intelligence Agency (May 8, 2006)
Good morning. Today I'm pleased to nominate General Mike Hayden as the next Director of the Central Intelligence Agency. Mike Hayden is supremely qualified for this position. President Discusses Peace Agreement in Sudan (May 8, 2006)
I want to thank Secretary of State Condoleezza Rice for joining me, and I also want to thank Deputy Secretary of State Bob Zoellick. He has just briefed me on his trip to Abuja, where he has played a very important role in setting up a peace agreement between the government of Sudan and a major rebel group in the Darfur region. President Bush and Governor Bush Visit Fire Station in Florida (May 9, 2006)
Jeb and I just were briefed by the firefighters here about the dry conditions that are creating hazards for the people, and Kelley, I appreciate your briefing. He was in charge of putting out that fire yesterday that consumed 450 acres. They think it was caused by a spark out of one of the
utility lines. I've always been impressed by those who are willing to get out and fight the fires, and save lives and save property. I'm surrounded by people who made a career out of that. And I want to thank them for their dedication to service, I want to thank them for the briefing about the threat we find ourselves in, we've got dry and windy conditions. President Bush Discusses Medicare Prescription Drug Benefit (May 9, 2006)
What I thought I would do is spend a little time talking about the new Medicare program. The reason I'm doing this, because I want people to sign up. And then I'll answer some questions if you have some. And then I'm going to go to Orlando and do the same thing tomorrow morning -- just like I did earlier in South Florida. And the reason why I'm doing this is because we have changed Medicare for the better, but sometimes change creates anxieties. In other words, people say, well, maybe I don't want to change. I kind of like it the way things are, but we have a duty to educate people and give them a chance to see what's available. And that's what I'm doing. That's what you want your President to do. We just visited with some of our citizens inside there, and they're talking about significant savings. And that's what we want, we want our seniors to be able to have modern medicine. So far a lot of seniors have signed up. It's coming down the stretch toward the May 15th deadline; we want everybody to sign up. We want people to understand that they're going to save a lot of money when it comes to prescription drugs. Click Here for Complete Text

PRESIDENTIAL STATEMENTS

President Disappointed in Senate Failure to Pass Real Medical Liability Reform (May 8, 2006)
I am disappointed that the Senate has yet again failed to pass real medical liability reform legislation. Unwilling to take on their trial lawyer supporters, the Democrats led this effort to block these much-needed reforms. Junk lawsuits are driving too many good doctors out of medicine. Women in nearly 1,500 counties are without a single OB-GYN, and frivolous and abusive lawsuits are encouraging the use of defensive medicine, which imposes substantial and unnecessary costs on all Americans. This is a national problem that deserves a national solution. I have called on Congress to pass responsible medical liability reforms, and the House of Representatives has acted. It is time for the Senate to put the needs of the American people ahead of the interests of trial lawyers and pass meaningful medical liability reform legislation.

President Urges Senate to Pass Tax Cut Legislation (May 10, 2006)
The tax cuts we passed in recent years are working to fuel America's economic expansion. Our pro-growth policies have helped the economy create more than 5.2 million jobs since August of 2003, and last year our economy grew faster than that of any other major industrialized nation. By extending key Capital Gains and Dividends tax relief, the House has taken an important step to continue to help hard-working Americans and to keep our economy strong and growing. I appreciate the House Leadership and Chairman Bill Thomas for their hard work. I urge the Senate to vote swiftly so that I can sign this bill into law and put a stop to a massive tax hike that would be disastrous for small businesses, our economy, and all working Americans.
President Applauds Senate for Passing Tax Relief Legislation (May 11, 2006)
I applaud the Senate for passing important tax relief that will help keep our economy strong and growing. This legislation prevents an enormous tax hike that the American people do not want and would not welcome. The bill will extend policies that have helped our economy flourish. We have had 18 straight quarters of growth, including 4.8 percent growth in the last quarter, and the unemployment rate is 4.7 percent. I appreciate the Senate Leadership and Chairman Grassley for their hard work on behalf of American taxpayers and small businesses, and I look forward to signing this important legislation into law.

President and Mrs. Bush Saddened by Death of Sonny Montgomery (May 12, 2006)
Laura and I and the entire Bush family are saddened by the death of a good friend and patriot, Sonny Montgomery. Sonny Montgomery served during World War II and the Korean War, and he was a tireless advocate for America's veterans throughout his three decades in the House of Representatives. He sponsored the Montgomery GI Bill, which has helped make higher education and professional training accessible to millions of our veterans. In 2005, he was awarded the Presidential Medal of Freedom, the Nation's highest civil award, in recognition of his lifetime of service to the United States. We send our condolences and prayers to the Montgomery family.
