

Inventory for FOIA Request 2014-0287-F

Records Summarizing Trends in Public Opinion Mail and Email sent to the White House and President George W. Bush

Extent

348 folders, approximately 17,544 pages / 61 assets

Access

Collection is open to all researchers. Access to George W. Bush Presidential Records is governed by the Presidential Records Act (PRA) (44 USC 2201) and the Freedom of Information Act (FOIA) (5 USC 552, as amended) and therefore records may be restricted in whole or in part in accordance with legal exemptions.

Copyright

Documents in this collection that were prepared by officials of the United States government as part of their official duties are in the public domain. Researchers are advised to consult the copyright law of the United States (Title 17, USC) which governs the making of photocopies or other reproductions of copyrighted material.

Provenance

Official records of George W. Bush's presidency are housed at the George W. Bush Presidential Library and administered by the National Archives and Records Administration (NARA) under the provisions of the Presidential Records Act (PRA).

Processing by

Staff Archivists, 2018. Previously restricted materials are added as they are released. Last Modified: 11/20/2018

Scope and Content

The materials in FOIA 2014-0287-F are a selective, not necessarily all inclusive, body of documents responsive to the topic of the FOIA. Researchers should consult the archivist about related materials.

FOIA 2014-0287-F requested records summarizing trends in public opinion mail and email sent to the White House and to President George W. Bush.

This FOIA primarily contains Mail Analysis worksheets, database printouts, and samples of the public correspondence received: letters, emails, and group petitions. Much of the worksheet material categorizes incoming mail by intended destination: VIP, First Lady, pets, No Response Necessary (NRNs), and mail referred to federal agencies for additional action. This FOIA also

contains printed emails from the public covering a variety of topics, dating from 2007 through 2008.

Contained within the records is raw data on a weekly and monthly basis on the amount of incoming mail, as well as forms tracking the major national or international issues addressed in that correspondence. There are records that summarize the number of form letters, by topic, sent by the White House in response. Researchers should note that there are no drafts or final copies of form letters in these folders. Rather, all of the White House-produced records concern the collection and routing of mail.

The textual records for this request come from the White House Office of Presidential Correspondence - Mail Analysis. Much of this material had little or no original arrangement. It has been arranged in rough chronological order, mostly by month/year. There is a gap between March 2002 and August 2003; the majority of the materials for this request date from 2006 through 2008.

The electronic records in this request include emails transmitting various Mail Analysis reports which detail the amounts of mail received by various components of the White House Office of Presidential Correspondence as well as breakdowns of various topics. Also included are individual copies of Mail Analysis reports and a cover sheet for the reports.

System of Arrangement

The materials in FOIA 2014-0287-F are a systematic body of documents responsive to the topic of the FOIA. Researchers should consult an archivist about related materials.

Documents responsive to this FOIA were found in these collection areas – Staff Member Office Files (SMOF) and George W. Bush Presidential Electronic Records.

Staff Member Office Files are maintained at the folder level by staff members within their individual offices and document all levels of administration activity.

Staff Member Office Files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area.

The Executive Office of the President (EOP) instance of the Electronic Records Archive (ERA) contains electronic records created or received by President George W. Bush. These records are stored in Search and Access Sets (SAS) that represent their originating computer program, such as Exchange Email or the Worker and Visitor Entry System (WAVES). In addition to records captured from the White House's electronic systems, EOP-ERA also contains records from the home and shared drives used by White House staff.

The following is a list of documents and folders, as well as a manifest of electronic records, processed in response to FOIA 2014-0287-F:
