Access

Collection is open to all researchers. Access to George W. Bush Presidential Records is governed by the Presidential Records Act (PRA) (44 USC 2201) and the Freedom of Information Act (FOIA) (5 USC 552, as amended) and therefore records may be restricted in whole or in part in accordance with legal exemptions.

Copyright

Documents in this collection that were prepared by officials of the United States government as part of their official duties are in the public domain. Researchers are advised to consult the copyright law of the United States (Title 17, USC) which governs the making of photocopies or other reproductions of copyrighted material.

Provenance

Official records of George W. Bush's presidency are housed at the George W. Bush Presidential Library and administered by the National Archives and Records Administration (NARA) under the provisions of the Presidential Records Act (PRA).

Processing by

Staff Archivists, 2019. Previously restricted materials are added as they are released. Last Modified: 04/16/2019

Scope and Content

The materials in FOIA 2014-0227-F[1] are a selective, not necessarily all inclusive, body of documents responsive to the topic of the FOIA. Researchers should consult the archivist about related materials.

FOIA 2014-0227-F[1] requested materials sent to, sent by, or received by President George W. Bush regarding Iraq or Saddam Hussein between January 20, 2001 and March 31, 2003.

The first segment of this FOIA primarily contains cover sheets, routing memoranda, printed routing emails, advance schedules and briefings, talking points, unclassified memoranda of conversation, unclassified head of state correspondence, press points, publications (including Iraqi publications), Congressional transcripts, letters to and from Congress members, letters from public organizations, and periodic reports to Congress, such as the periodic report on the

National Emergency with Respect to Iraq and the Report to Congress Consistent with Authorization for Use of Military Force Against Iraq Resolution of 2002. The correspondence from Congress members include letters regarding UN inspections, complying with United Nations Security Council Resolution 1441, and questions about periodic reports.

Additionally, this FOIA includes bills, charts, maps, a declassified summary of conclusions from March 19, 2003, where President George W. Bush names Operation Iraqi Freedom, drafts of United Nations Security Council Resolutions, and drafts of the Joint Resolution to use Armed Forces Against Iraq (Authorization for Use of Force Against Iraq Resolution of 2002).

Also covered in this request are routine memoranda of conversations and memoranda of telephone conversations, some of which are marked unclassified and others which have been declassified under mandatory declassification review. These include conversations with Prime Minister Anders Fogh Rasmussen of Denmark, President Pervez Musharraf of Pakistan, Sultan bin Said Qaboos of Oman, King Hamad bin Isa al-Khalifa of Bahrain, among others.

In addition, one will find mainly routine head of state correspondence, some of which are marked unclassified and others which have been declassified under mandatory declassification review. These include correspondence with Prime Minister Jose Maria Aznar of Spain, Prime Minister Fatos Nano of Albania, the Prime Minister of Kuwait, President Vaclav Havel, among others.

It should be noted that many of the documents listed here have been closed due to National Security classification and/or exemptions of the Freedom of Information Act.

System of Arrangement

The materials in FOIA 2014-0227-F[1] are a systematic body of documents responsive to the topic of the FOIA. Researchers should consult an archivist about related materials.

Documents responsive to this FOIA were found in these collection areas – Staff Member Office Files.

Staff Member Office Files are maintained at the folder level by staff members within their individual offices and document all levels of administration activity.

Staff Member Office Files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area.

The following is a list of documents and folders processed in response to FOIA 2014-0227-F[1]:
