Scope and Content
The materials in FOIA 2017-0249-F are a selective, not necessarily all inclusive, body of documents responsive to the topic of the FOIA. Researchers should consult the archivist about related materials.

This FOIA primarily contains the daily diary of President George W. Bush for select dates.

System of Arrangement
The materials in FOIA 2017-0249-F are a systematic body of documents responsive to the topic of the FOIA. Researchers should consult an archivist about related materials.
Documents responsive to this FOIA were found in these collection areas – Staff Member and Office Files.

Staff Member and Office Files are maintained at the folder level by staff members within their individual offices and document all levels of administration activity.

Staff Member and Office Files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area.
