Scope and Content

The materials in FOIA 2016-0383-F are a selective, not necessarily all inclusive, body of documents responsive to the topic of the FOIA. Researchers should consult the archivist about related materials.

FOIA 2016-0383-F requested materials related to the meeting of President George W. Bush and Prime Minister Silvio Berlusconi of Italy on January 20, 2003.

This FOIA primarily contains agendas for the visit of Prime Minister Silvio Berlusconi of Italy, guests lists, schedules for President George W. Bush and First Lady Laura Bush, briefings for events, phone logs, printed emails, Worker and Visitor Entry System (WAVES) records, press briefing transcripts, menus, printed webpages, fax cover pages, routine memoranda, points to be made in press remarks with Prime Minister Berlusconi, memoranda discussing proper forms of

address for Prime Minister Berlusconi, and a memorandum discussing routine details of the meeting and lunch with Prime Minister Berlusconi. Electronic records consist of numerous copies of an emailed pool report that briefly describes the meeting.

Please note that a portion of classified records related to this request has not yet been processed. Additional records will be provided as they become available.

System of Arrangement

The materials in FOIA 2016-0383-F are a systematic body of documents responsive to the topic of the FOIA. Researchers should consult an archivist about related materials.

Documents responsive to this FOIA were found in these collection areas – Staff Member Office Files and George W. Bush Presidential Electronic Records.

Staff Member Office Files are maintained at the folder level by staff members within their individual offices and document all levels of administration activity.

Staff Member Office Files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area.

The Executive Office of the President (EOP) instance of the Electronic Records Archive (ERA) contains electronic records created or received by President George W. Bush. These records are stored in Search and Access Sets (SAS) that represent their originating computer program, such as Exchange Email or the Worker and Visitor Entry System (WAVES). In addition to records captured from the White House's electronic systems, EOP-ERA also contains records from the home and shared drives used by White House staff.

The following is a list of documents and folders, as well as a manifest of electronic records, processed in response to FOIA 2016-0383-F:
