

Inventory for FOIA Request 2017-0425-F

Records Relating to the British-United States Communication Intelligence Agreement (now known as the "UKUSA Agreement")

Extent

63 folders, approximately 2,410 pages / 959 assets

Access

Collection is open to all researchers. Access to George W. Bush Presidential Records is governed by the Presidential Records Act (PRA) (44 USC 2201) and the Freedom of Information Act (FOIA) (5 USC 552, as amended) and therefore records may be restricted in whole or in part in accordance with legal exemptions.

Copyright

Documents in this collection that were prepared by officials of the United States government as part of their official duties are in the public domain. Researchers are advised to consult the copyright law of the United States (Title 17, USC) which governs the making of photocopies or other reproductions of copyrighted material.

Provenance

Official records of George W. Bush's presidency are housed at the George W. Bush Presidential Library and administered by the National Archives and Records Administration (NARA) under the provisions of the Presidential Records Act (PRA).

Processing by

Staff Archivists, 2017. Previously restricted materials are added as they are released. Last Modified: 11/08/2017

Scope and Content

The materials in FOIA 2017-0425-F are a selective, not necessarily all inclusive, body of documents responsive to the topic of the FOIA. Researchers should consult the archivist about related materials.

FOIA 2017-0425-F requested materials related to the British United States Communication Intelligence Agreement (UKUSA Agreement).

This FOIA primarily contains printed administrative email, cover sheets, action data summary reports, acts, press releases, and notes. This FOIA contains information memoranda from 2007 to President George W. Bush regarding The Technical Cooperation Program, as well as a memorandum discussing The Technical Cooperation Program.

The electronic records in this FOIA consist of routine correspondence, organizational charts, talking points, published reports and papers, newsletters, and news articles.

It should be noted that many of the documents in this FOIA have been closed due to National Security classification and/or exemptions of the Freedom of Information Act.

System of Arrangement

The materials in FOIA 2017-0425-F are a systematic body of documents responsive to the topic of the FOIA. Researchers should consult an archivist about related materials.

Documents responsive to this FOIA were found in these collection areas – Staff Member and Office Files and George W. Bush Presidential Electronic Records.

Staff Member and Office Files are maintained at the folder level by staff members within their individual offices and document all levels of administration activity.

Staff Member and Office Files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area.

The Executive Office of the President (EOP) instance of the Electronic Records Archive (ERA) contains electronic records created or received by President George W. Bush. These records are stored in Search and Access Sets (SAS) that represent their originating computer program, such as Exchange Email or the Worker and Visitor Entry System (WAVES). In addition to records captured from the White House's electronic systems, EOP-ERA also contains records from the home and shared drives used by White House staff.

The following is a list of documents and folders, as well as a manifest of electronic records, processed in response to FOIA 2017-0425-F:
