Scope and Content
The materials in FOIA 2017-0377-F are a selective, not necessarily all inclusive, body of documents responsive to the topic of the FOIA. Researchers should consult the archivist about related materials.

FOIA 2017-0377-F requested materials related to correspondence, speeches, and schedules related to President George W. Bush’s writing and recording of the speech for the Hall of Presidents at Walt Disney World.

This FOIA primarily contains briefing papers, block and narrative schedules, event memoranda, routing memoranda, correspondence from Van Romans of Walt Disney World to Preston Padden of Walt Disney World and Scott Sforza of the White House about the Hall of Presidents Project, an image of President George W. Bush in the Hall of Presidents, and schedules for the taping of
President’s George W. Bush’s speech for the Hall of Presidents. Electronic records consist of schedule proposals, speechwriting proposals, briefing papers, approved presidential activity forms, daily and narrative schedules of President George W. Bush, a press gaggle transcript, drafts of the script for the audio tapings, background on the Hall of Presidents, and communication between the White House and Disney staff regarding the script and recordings. Material relates to the initial recording of the Hall of Presidents script in English on May 8, 2001, as well as the subsequent recording and re-recording of the script in Spanish, including logistics, scheduling, and translating for the Spanish version.

**System of Arrangement**
The materials in FOIA 2017-0377-F are a systematic body of documents responsive to the topic of the FOIA. Researchers should consult an archivist about related materials.

Documents responsive to this FOIA were found in these collection areas – White House Office of Records Management (WHORM) Subject Files, Staff Member Office Files, and George W. Bush Presidential Electronic Records.

WHORM Subject Files are processed at the document level.

The WHORM Subject File compiled by the White House Office of Records Management is comprised of a series of documents assigned a letter/number combination and filed in a subject category. A complete listing of the subject categories including a detailed description of each category is available in our research room and on our website at www.georgewbushlibrary.smu.edu

Staff Member Office Files are maintained at the folder level by staff members within their individual offices and document all levels of administration activity.

Staff Member Office Files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area.

The Executive Office of the President (EOP) instance of the Electronic Records Archive (ERA) contains electronic records created or received by President George W. Bush. These records are stored in Search and Access Sets (SAS) that represent their originating computer program, such as Exchange Email or the Worker and Visitor Entry System (WAVES). In addition to records captured from the White House’s electronic systems, EOP-ERA also contains records from the home and shared drives used by White House staff.

The following is a list of electronic search results lists (SRLs) and folders processed in response to FOIA 2017-0377-F:
