Scope and Content

The materials in FOIA 2016-0183-F are a selective, not necessarily all inclusive, body of documents responsive to the topic of the FOIA. Researchers should consult the archivist about related materials.

FOIA 2016-0183-F requested Dana Perino's Staff Member Office Files.

This FOIA primarily contains draft and final talking points, draft and final fact sheets, correspondence, transcripts, news articles, printed emails, published reports, handwritten notes, pool reports, and schedules. Draft and final talking points convey George W. Bush administration policy on a wide range of topics including domestic policy matters, foreign policy issues, as well as controversial issues such as wiretapping. Correspondence includes letters from Congress, printed emails between White House staff and reporters, and interview requests from journalists at a wide variety of media organizations. Published reports include *The Federal*

Response to Hurricane Katrina: Lessons Learned and National Strategy for Combating Terrorism. Also included are documents related to the Supreme Court nominations of Harriet Miers, Samuel Alito, and John Roberts, including previous administration documents, publicly released financial disclosures, questionnaires, printed articles, letters of support, news coverage, talking points, fact sheets, and printed legal documents.

Some material in this request pre-dates Perino's time in the White House; these items presumably come from Ari Fleischer, Scott McClellan, or Tony Snow.

System of Arrangement

The materials in FOIA 2016-0183-F are a systematic body of documents responsive to the topic of the FOIA. Researchers should consult an archivist about related materials.

Documents responsive to this FOIA were found in these collection areas – Staff Member and Office Files.

Staff Member and Office Files are maintained at the folder level by staff members within their individual offices and document all levels of administration activity.

Staff Member and Office Files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area.

The following is a list of documents and folders processed in response to FOIA 2016-0183-F:
