Scope and Content
The materials in FOIA 2014-0078-F[1] are a selective, not necessarily all inclusive, body of documents responsive to the topic of the FOIA. Researchers should consult the archivist about related materials.

The first segment of this FOIA primarily contains correspondence to and from congress members regarding the treatment of detainees held by the United States in the wake of 9/11; general correspondence and press releases regarding the text of Executive Order 13440 - Interpretation of the Geneva Conventions Common Article 3 as Applied to a Program of Detention and Interrogation Operated by the Central Intelligence Agency; general correspondence and a statement by President George W. Bush regarding the United Nations
International Day in Support of Victims of Torture, also referred to as “Torture Day,” for the years 2002 and 2003; several released memoranda from the Office of Legal Counsel at the United States Department of Justice written by John Yoo, Jay Bybee, and Daniel Levin regarding the status and treatment of detainees at Guantanamo; transcripts of congressional testimonies; Department of Defense (DOD) directives and policy memoranda; responses to questions asked of Legal Advisor John Bellinger and National Security Advisor Condoleezza Rice by the United States Senate Committee on Armed Services later cited in the Committee’s published report “Inquiry into the Treatment of Detainees in U.S. Custody;” as well as articles, talking points, facts sheets, transcripts and testimony concerning investigations into detainee abuse. The manuals to be opened include several copies of the Army Field Manual on Human Intelligence Collector Operations.

Additionally, the textual portion of this FOIA includes such documents as bills, charts, correspondence (including letters, emails and memoranda), court orders, directives, distribution receipts, executive orders, lists, manuals, National Security Council Profile Sheets, news and journal articles, press briefings and press releases, public laws, publications, Q and As, reports, statements, and transcripts related to methods of interrogation.

Electronic records consist of reports, testimony, transcripts, articles, Q and As, correspondence, bills, and talking points from 2001 to March 2005. Records dealing with Congress include Senate inquiries requesting documents and final White House responses, questions for the record from Senators, and draft testimony and transcripts for Senate hearings. Additionally, there are articles, questions for the record from Senators, talking points from Senators, hearing testimony and transcripts, and supporting material for nominees such as Alberto Gonzales for Attorney General, Condoleezza Rice for Secretary of State, and Michael Chertoff for Secretary of Homeland Security. Correspondence with the media and human rights organizations regarding the treatment of detainees is also present. One will find briefs filed with the Supreme Court concerning Jose Padilla, as well as a Q and A and summary information concerning Mr. Padilla. Moreover, records relate to the June 22, 2004, press briefing with White House and DOD officials, in which documents related to detainees and their treatment were released to the public. There are also White House and DOD talking points about this release of records. Finally, there are articles, talking points, facts sheets, transcripts and testimony concerning investigations into detainee abuse; articles concerning criminal charges related to detainee abuse; copies of the National Defense Authorization Act and response letters; and the report entitled “Preserving Security and Democratic Freedoms in the War on Terrorism.”

It should be noted that many of the documents in this FOIA have been closed due to National Security classification and/or exemptions of the Freedom of Information Act.

System of Arrangement
The materials in FOIA 2014-0078-F[1] are a systematic body of documents responsive to the topic of the FOIA. Researchers should consult an archivist about related materials.

Documents responsive to this FOIA were found in these collection areas – White House Office of Records Management (WHORM) Subject Files, Staff Member Office Files, and George W. Bush Presidential Electronic Records.
Staff Member Office Files are maintained at the folder level by staff members within their individual offices and document all levels of administration activity.

Staff Member Office Files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area.

WHORM Subject Files are processed at the document level.

The WHORM Subject File compiled by the White House Office of Records Management is comprised of a series of documents assigned a letter/number combination and filed in a subject category. A complete listing of the subject categories including a detailed description of each category is available in our research room and on our website at www.georgewbushlibrary.smu.edu

The Executive Office of the President (EOP) instance of the Electronic Records Archive (ERA) contains electronic records created or received by President George W. Bush. These records are stored in Search and Access Sets (SAS) that represent their originating computer program, such as Exchange Email or the Worker and Visitor Entry System (WAVES). In addition to records captured from the White House’s electronic systems, EOP-ERA also contains records from the home and shared drives used by White House staff.

The following is a list of documents and folders, as well as a manifest of electronic records, processed in response to FOIA 2014-0078-F[1]:
