Collection is open to all researchers. Access to George W. Bush Presidential Records is governed by the Presidential Records Act (PRA) (44 USC 2201) and the Freedom of Information Act (FOIA) (5 USC 552, as amended) and therefore records may be restricted in whole or in part in accordance with legal exemptions.

#### **Copyright**

Researchers are advised to consult the copyright law of the United States (Title 17, USC) which governs the making of photocopies or other reproductions of copyrighted material.

#### **Processing by**

Staff Archivists, 2018. Previously restricted materials are added as they are released. Last Modified: 11/20/2018

#### **Scope and Content**

The materials in FOIA 2015-0204-F are a selective, not necessarily all inclusive, body of documents responsive to the topic of the FOIA. Researchers should consult the archivist about related materials.

FOIA 2015-0204-F requested materials related to the United States effort to remove Jose Bustani from the Organization for the Prohibition of Chemical Weapons.

This FOIA contains cover sheets, news articles, Q and As, cables, web printouts, and a resume. The majority of this request consists of news articles and unclassified cables on the removal of Jose Bustani from the Organization for the Prohibition of Chemical Weapons. Also included is a copy of Jose Bustani's curriculum vitae. Electronic records consist of news clip compilations, the Foreign Media Reaction Early Report from the State Department, the Coalition Information

Centre World Briefing, a press briefing by Ambassador Richard Boucher, and a final press guidance package from the State Department.

Please note that a portion of classified records related to this request has not yet been processed. Additional records will be provided as they become available.

### **System of Arrangement**

The materials in FOIA 2015-0204-F are a systematic body of documents responsive to the topic of the FOIA. Researchers should consult an archivist about related materials.

Documents responsive to this FOIA were found in these collection areas – Staff Member Office Files and George W. Bush Presidential Electronic Records.

Staff Member Office Files are maintained at the folder level by staff members within their individual offices and document all levels of administration activity.

Staff Member Office Files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area.

The Executive Office of the President (EOP) instance of the Electronic Records Archive (ERA) contains electronic records created or received by President George W. Bush. These records are stored in Search and Access Sets (SAS) that represent their originating computer program, such as Exchange Email or the Worker and Visitor Entry System (WAVES). In addition to records captured from the White House's electronic systems, EOP-ERA also contains records from the home and shared drives used by White House staff.

The following is a list of documents and folders, as well as a manifest of electronic records, processed in response to FOIA 2015-0204-F:
