Scope and Content

The materials in FOIA 2014-0457-F are a selective, not necessarily all inclusive, body of documents responsive to the topic of the FOIA. Researchers should consult the archivist about related materials.

FOIA 2014-0457-F contains materials related to Iraq, dated January 2001 to March 2003, within the National Security Council files of Condoleezza Rice.

This FOIA primarily contains congressional correspondence, routing memoranda, talking points for meetings, news articles, a copy of Presidential Decision Directive 68, a map of Iraq, and drafts of the joint resolution of the Authorization for Use of Military Force. There is also a letter from Congress members regarding the global campaign against terrorism, as well as research on

congressional authorization of the use of force in war. In addition, one will find a meeting summary from Secretary of State Colin L. Powell from September 26, 2002.

It should be noted that many of the documents listed here may have been closed due to National Security classification and/or exemptions of the Freedom of Information Act.

System of Arrangement

The materials in FOIA 2014-0457-F are a systematic body of documents responsive to the topic of the FOIA. Researchers should consult an archivist about related materials.

Documents responsive to this FOIA were found in these collection areas – Staff Member Office Files.

Staff Member Office Files are maintained at the folder level by staff members within their individual offices and document all levels of administration activity.

Staff Member Office Files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area.
