Draft #6

Thank you very much. I am pleased to join all of you gathered today at the University of Virginia's Miller Center of Public Affairs. I want to thank my friend Director Philip Zelikow [ZELL-ih-ko], the Center's Governing Council, and the Council's chairman, Dan Frierson [FRY-er-son], for their leadership.

I also want to send my greetings to President Carter. He and I have both been honored to live and work in the White House. And we both share a commitment to ensuring that the American people stay connected with the political process.

And that is why the Miller Center is so important. Whether it is studying the craft of making public policy ... or conducting oral history interviews with top officials from prior administrations ... you help make the Presidency a living entity for scholars and ordinary citizens alike.

In addition, the Bipartisan National Commission on Federal Election Reform has fostered a respect for civic values and fair solutions to public policy debates. I was pleased last year to see President Carter and President Ford co-chair this important commission and recommend a series of election reform proposals. And I urge the House and Senate to settle their differences and send me legislation based on the principles underlying this important work.

The Miller Center is developing into a wonderful resource for the University of Virginia and the entire country. I commend you for your scholarship. I thank you for your leadership. And I praise you for your service to our country.

May God bless you. And may God bless America.

Draft #2

Thank you very much. I am pleased to join all you gathered today at the University of Virginia's Miller Center of Public Affairs. I want to thank Philip Zelikow, the members of the Center's Governing Council, and its chairman, Dan Frierson, for their leadership.

I also want to send my greetings to President Carter. He and I have both been honored to live and work in the White House. And we both share a commitment to ensuring that the American people stay connected with the political process.

And that is why the Miller Center is so important. Whether it is transcribing and editing the tapes of previous presidents ... or studying the craft of making public policy ... or conducting oral history interviews with top official from prior administrations ... you help make the Presidency a living entity for scholars and ordinary citizens alike.

In addition, your bipartisan national commission has fostered a respect for civic values and fair solutions to public policy debates. I was pleased to see President Carter join with President Ford and the Miller Center to recommend a series of election reform proposals. And I urge the House and Senate to settle their differences and send me legislation based on these common sense recommendations.

So the Miller Center is just as vibrant today as it was on the day it began. I commend you for your scholarship. I thank you for your leadership. And I praise you for your service to our country.

May God bless you. And may God bless America.
